Oxford Softball League Privacy Policy

We collect information about visitors to our website in a few different ways–we collect certain information that the visitors provide to our website and we collect some information automatically.

Information a Visitor Provides to a Site

Visitors provide information to our website when they type into a text field on the site, like a comment field or a sign-up form.

Here are the most common ways in which a visitor directly provides information to our site:

- **Follower and Subscriber Information:** When a visitor signs up to follow or subscribe to our site, we collect the sign-up information which typically includes an email address.
- **Site Comments:** When a visitor leaves a comment on our site, we collect that comment, and other information that the visitor provides along with the comment, such as the visitor's name and email address.
- **Other Information Entered on the Site:** We may also collect other information that a visitor enters on the site–such as a contact form submission, a search query, or site registration.

Information We Automatically Collect from the Site

We also automatically collect some information about visitors to our site. For example:

- **Technical Data from a Visitor's Computer:** We collect the information that web browsers, mobile devices, and servers typically make available about

visitors to our site, such as the IP address, browser type, unique device identifiers, language preference, referring site, the date and time of access, operating system, and mobile network information.

- **Visitor Interactions:** We collect information about a visitor's interactions with our site.
- **Location Information:** We may determine the approximate location of a visitor's device from the IP address. We collect and use this information to, for example, tally how many people visit our site from certain geographic regions.
- **Information from Cookies and Other Technologies:** A cookie is a string of information that a site stores on a visitor's computer, and that the visitor's browser provides to the site each time the visitor returns. Pixel tags (also called web beacons) are small blocks of code placed on sites. Our site uses cookies and other technologies like pixel tags to help identify and track visitors and site usage. For more information about our use of cookies and other technologies for tracking, including how visitors can control the use of cookies, please see our Cookie Policy.

How We Use Visitor Information

We use information about site visitors in order to analyze and track usage, to determine the popularity of certain content, to provide requested information, and to send out newsletters to subscribers.

How We Share Visitor Information

We may share information collected about site visitors in the limited circumstances spelled out below:

- **Legal Requests:** We may disclose site visitor information in response to a subpoena, court order, or other governmental request.

- **To Protect Rights, Property, and Others:** We may disclose site visitor information when we believe in good faith that disclosure is reasonably necessary to protect the property or rights of our Users, third parties, or the public at large. For example, if we have a good faith belief that there is an imminent danger of death or serious physical injury, we may disclose information related to the emergency without delay.
- **Information Shared Publicly:** Information that visitors choose to make public is–you guessed it–disclosed publicly. That means, of course, that information like visitor comments and "likes" are all available to others, including information about the visitor that is displayed in connection with a comment or "like". Public information may also be indexed by search engines or used by third parties.

Other Tools

For more information about how to manage and delete cookies, visit aboutcookies.org, and for more information on interest-based ads, including information about how visitors may be able to opt out of having their web browsing information used for behavioral advertising purposes, please visit aboutads.info/choices (US based) and youronlinechoices.eu (EU based).
